Rep. Coladipietro Tapped to Key House Committees

Bloomington, IL ... Newly sworn in State Representative Franco Coladipietro (R-Bloomington) was appointed to the Registration and Regulation Committee which oversees regulation of professional licenses. This committee will be extremely active this session with the expiration of twelve professional licenses acts including the Nursing Practice Act.

“The committee will review and rewrite regulations for all twelve professions. They need to consider how those changes affect current license holders and the public who interact with them,” Coladipietro said. “For example, I have over 4000 nurses in my district that will be directly impacted by the expiration of the Nursing Practice Act.”

State Representative Franco Coladipietro’s professional experience as a managing partner of a Bloomington law firm will make him an asset on additional committees he has been appointed to including: Aging, International Trade & Commerce, Judiciary I – Civil Law, Least Cost Power Procurement and Public Utilities.

“My experience serving as an active lawyer in my community will help me with my various Committee assignments especially Judiciary I – Civil Law. I look forward to tackling complicated legal issues such as land use, real estate, personal liability, and financial regulation,” Representative Coladipietro said.

Rep. Coladipietro can be contacted at his district office located at 126 W Lake St, Bloomington, or by calling (630) 582-0045.
